## MOBILE WELDING FUME EXTRACTOR

The MobilePro is a mobile welding fume filter with built-in fan. The highly efficient filter cartridge is self-cleaning by the integrated RamAir™ pulse amplifier, based on external compressed air supply.

Thanks to the four transport wheels (two of which are swivel casters with brake), the MobilePro is suitable for use in relatively small facilities or near sources of pollution without a fixed location.

The extraction arm is to be selected and ordered separately.

### **APPLICATIONS**

The MobilePro is intended to be used for the following applications:

- MIG-MAG/GMAW welding
- TIG welding
- FCAW welding
- stick/MMAW welding
- stainless steel welding
- grinding
- polishing
- finishing
